

Goodbye sore, hello smile

## Prevent Prevent cold sore daily lip balm for the prevention of cold sores

Daily

SoreFix Prevent cold sore lip balm can be used daily to prevent an outbreak when running a greater risk of reactivating the cold sore (herpes simplex) virus. The balm forms a physical barrier that protects the lips against cold sore triggers (see cold sore triggers in blue bar). SoreFix Prevent contains sun protection filter (SPF 30) for optimal protection of the lips and to prevent cold sore relapses triggered by UV-light. The cold sore lip balm is rich in natural oils and vitamin E to improve the condition of the lips.

### Dosage and use:

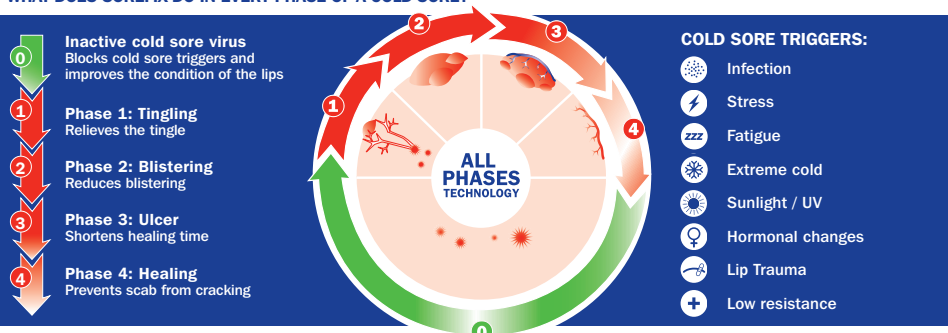

To prevent a cold sore, apply SoreFix Prevent cold sore lip balm 3-6 times a day on the entire lips when exposed to triggers (see blue bar). It is advised to wash hands before and after application. When using lipstick, apply SoreFix Prevent cold sore lip balm at least 15 minutes in advance.

SoreFix Prevent cold sore lip balm is free of sulphates, free of polyethylene glycols, TEA's, DEA's, parabens and other preservatives.

### Precautions for use:

- SoreFix Prevent cold sore lip balm is only suitable for external use on and around the lips.
- SoreFix Prevent cold sore lip balm must not be used if allergic or oversensitive to one or more of the ingredients. Stop the use of SoreFix Prevent cold sore lip balm immediately when irritation or an allergic reaction occurs. Contact a health care professional if symptoms persist.
- When pregnant, only use SoreFix Prevent cold sore lip balm if instructed by, and under supervision of, a health care professional. SoreFix Prevent can be used during breastfeeding.
- SoreFix Prevent cold sore lip balm is suitable for adults and children of 4 years and older.
- It is recommended to pause usage for 2 days after 30 days of continuous use.
